

LENGTH OF SACRAMENT HYMNS

In some wards, if the congregation finishes singing before the Sacrament is fully prepared, the organist will continue to play softly until the Priests are finished. This list will assist the organist in knowing which hymns may need to be “lengthened” based on the average Sacrament preparation time in their ward. It may also help in selecting a sacrament hymn. If you know there may be more on attendance in a particular Sunday – you may want to choose a longer Sacrament Hymn.
